IMPACT WRENCH

Pneumatic

When speed is necessary, HYTORC Impact Wrenches are a great solution, especially when used to run down nuts in advance of torquing with other HYTORC precision tools. This durable pneumatic impact wrench is a good option when low cost is the most important requirement. Built with quality in mind, it provides unmatched speed and power in any bolting situation. With its high torque output, it can quickly loosen bolts and keep your bolting job on schedule, making it an excellent addition to your torque tool arsenal.
